

## Clark Forklift Part

Clark Forklift Part - At this time, there are no less than 350,000 Clark forklifts performing globally, and in excess of 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 particular parts designed for 20 distinctive models of forklifts and automated equipment. Your regional Clark Seller is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really outstanding worldwide support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing protection features such as the operator restraint system. This exceptional commitment to safety is now a standard feature on every forklift.

Clark's recurrent goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their production plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the particularly economical and beneficial structure of "Lean Production" for its assembly facilities and application of resources. This system was developed to acknowledge the most successful method of manufacturing plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing expenses. The new value engineering program combines progressive product development and delivers improved client support and service within the industry.
