

Rotator for Forklifts

Rotator for Forklift - Forklift attachments are offered for numerous applications. For example, the lift truck rotator is helpful for moving, lifting and rotating drums and barrels. There are other accessories helpful for carrying carpet rolls and cartons, for pouring waste materials or sand. A few of the most regularly used forklift attachments are the side shifter accessories, fork positioner, rotator and clamp. These tools come in different dimensions to fit a variety of forklift units. They are designed to hold heavy objects and are a benefit to many warehouse and factory environments.
